

New Varieties for 2021:

It's always a challenging task to take only the highlights from our annual introductions and this, our 40th anniversary season is no different. We're genuinely excited with our mouth-watering offering for 2021 and mostly due to the fact that we have so many lovely new products to whet the appetite! I really don't know where to begin!

As always, we have some irresistible seasonal patio and basket and container plants including some classic Calibrachoa with unbelievable habits and colours, a couple of great new Trio Mio combinations, two robust Petunia and the handsome Nepeta 'Dappled Light'.

We have a growing range of what we refer to as premium annuals, that have something a little more to offer than other traditional, more commoditised annuals, either in longevity of season, more perennial nature, or just an indescribable "X-factor"! Incredible flower power of Agapanthus Summer Love 'Blue'. Calendula PowerDaisy™ 'Sunray' is a welcome bi-coloured addition to complete a glorious trio of PowerDaisy™. Salvia Rockin' 'Blue Suede Shoes' is a great match for the incredibly popular 'Deep Purple' and 'Fuchsia' varieties from Proven Winners®. Verbena 'Margaret's Memory' is a delightful pink sister variety to 'Seabrook's Lavender'.

Some Mediterranean-style, summer spectaculars also grace this year's catalogue. Evolvulus 'Blue My Mind' has surprised and excited us by the fact that whilst it loves bathing in sunshine, it will take the cooler summer days very well. Gomphrena 'Truffula Pink' has taken the USA by storm. This Proven Winner® is multi-award winning in trial stations across America and it is set to be a big favourite here.

If it's perfect perennials you're after, we have them in "spades". Some impressive Achillea, a new favourite Heuchera in 'Silver Gum Drop', Lewisia 'Constant Comment' is indeed constant by name, constant by nature. The Primula Belarina™ series just keeps on getting better, now with the addition of 'Lemon Chiffon' and exceptionally large flowered variety and sumptuous orange flowers of 'Mandarin'.

House plants have certainly been on-trend in recent years and we have been developing our offerings to reflect this surge in plants ideally suited to indoor situations. We have a completely new range of six interesting Fern varieties. We also have a range of eight succulent varieties which are great for sunny windows and conservatories, or outside on balconies or verandas for summer. We believe these are great to capture the imagination of budding young gardeners out there.

Such is the range and scope of varieties that we grow at Kernock, we're going to have to make a completely new group of all the items that don't really fit into any other category! This year we have several items that are pretty unique in nature including Chlorophytum 'Starlight', Cyperus, or Dwarf Egyptian Papyrus called 'Little Prince' and Rhycospora 'Dancing Star' with magnificent wispy white stars over green swards of foliage.

We extend our alpine and small plants range with Ajuga 'Princess Nadia' a multicoloured delight, a Campanula known as 'Silver Rain' with abundance of lovely trails of white flowers. Dianthus 'Flutterburst' has impressed in our extensive trials – with steely blue foliage with lovely pink scented blooms. Star of the show at Chelsea in 2019, the delightful Gold Medal winner Sedum 'Atlantis' is one of three Stonecrop varieties to make an entry onto our list. The shrubs and climbers range see some great additions including a sweet pink Boulevard® Clematis known as 'Pompeii'. Cordyline 'Salsa' has been catching our eye for several seasons, as well as the Black Elder – Sambucus 'Black Lace'.

We've gone totally tropical with the introduction of two excellent Colocasia varieties. Tried and tested in our British summer, these were the best, most robust and tolerant of our unpredictable weather of all varieties in trial, but are also well suited to more protected, or even well-lit indoor locations.

So, take a look over the following few pages to see a summary of our new introductions, or flick through our entire catalogue for more information on our entire range!
